

## Anopol Group Quality & Environmental Policy Statement Strategic Direction

### Scope and Context of the Organisation

The Anopol Group have over 45 years' experience in electropolishing and other surface treatment processes and, when taking into consideration the differing requirements from sector to sector, we are able to offer a variety of solutions in cleaning, maintenance and other metal surface treatments. The scope is defined and is available on request.

The group offers comprehensive in-house and on-site subcontract services for cleaning, pickling, passivating and electropolishing of Stainless Steel with projects having been carried out by our site teams all over the UK and in several European countries

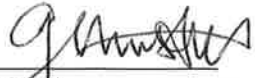

We believe the key elements essential in achieving our strategic direction which is derived from this policy are in controlling the company internal and external factors, identifying our risks and opportunities to achieve our objectives and meeting the needs of our customers and interested parties associated with Anopol Group.

### Policy Statement

- Our policy has been established setting a framework to achieve our quality and environmental objectives and to drive our vision to be the technological leader and provider for electrolytic and chemical metal surface engineering in our chosen sectors
- The Anopol Group are committed to meeting customer satisfaction through our continual improvement activities, striving for business efficiency and effectiveness for quality as well as environmental to enhance environmental performance.
- We will respect our customers, suppliers and stakeholders, and continually deliver expectations and our responsibilities.
- The Anopol Group will promote employee satisfaction, development and growth. Lead a favourable climate to promote quality and continuous improvement, health and safety **practice** and environmental **impact management**.
- Our activities, products and services are documented within our management system to control risks and mitigate quality and environmental impacts.
- We are committed to the protection of the environment, including prevention of pollution, and will satisfy other applicable requirements relevant to us including fulfilling our compliance obligations, ensuring they are consistently met.
- The Anopol Group uses energy, water, materials and other natural resources as efficiently as possible, giving particular regard to the long-term sustainability of consumable items.
- We are committed to establishing partnerships with suppliers and interested parties to provide an improved quality service, including the consideration of the environment in the procurement and supply of goods and services.

This policy will be communicated to all employees and will be available to other interested parties as appropriate. Employees and other organisations associated to us are expected to co-operate with our policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment. This policy will be reviewed annually by top management and where deemed necessary, amended and re-issued.
